

Cleaning Instructions

HOVMAND
LIFTING & MOVING TECHNOLOGY

Product: Impact Series
Models: Impact 70,80,90,130 and 200

Ingress Protection Marking (IP)

Model Approved IP Code:	IP 41	IP Code Description	
Solid particle protection	IP 4X	>1 mm	Most wires, slender screws, large ants etc.
Liquid ingress protection	IP X1	Dripping water	Dripping water (vertically falling drops) shall have no harmful effect on the specimen when mounted in an upright position onto a turntable and rotated at 1 RPM.

Special Instructions / Precautions

1. Always wear the correct safety equipment
2. Lower the lifting tool, so that you don't risk a head injury when cleaning near the floor.
3. The battery charger must be disconnected from the main during cleaning.
5. In case of remote control the plug must be fitted during cleaning.

Detergent Application

	- Use a standard PH neutral cleaning detergent.		- Do not use Acid, Alkaline or harsh chemical products, these might weaken the drive belt and other sensitive components or leave marks on the surfaces.
---	---	---	--

Works Process

	- The outer surfaces can be cleaned using a damp cloth.		- Do not use liquids to clean the lifter as this may have adverse effect on the electrical components
---	---	---	---

Key Inspection Points

1. Test that all functions are working properly before the lifter is taken back into service.
